ican capitalists in the establishment of an international bank in China is bearing fruit. Mr. Walter G. Oakman, president of the Guarantee Trust Company of New York, has already called upon Secretary Hay to talk upon this subject. There seems to be a desire on the part of other capitalists to know how far they can count on the aid of the United States government in the maintenance of the bank, and the Secretary of State is referring the inquirers to the Secretary of the Treasury, who will determine that matter. who will determine that matter.

Compass Whist at Yarborough Club. An interesting round of compass whist was played at the rooms of the Yarborough Whist Club Wednesday night, the club's regular evening for compass play. It required nine tables to accommodate the enthusiastic whisters. Many interesting hands came up in the evening's play, and hands came up in the evening's play, and the clever handling of the cards on these deals spoke volumes for the ability and reputation of the pairs the made the most on them. Miss Charlotte Schmidt and Miss King secured the top score, sitting north and south, while Mrs. Stewart and Mr. Taliaferro had the best figures for the east and west contingent east and west contingent.

Adulterated Foods. To the Editor of The Evening Star:

I note an article in Wednesday's Star about adulterated goods and would ask that correspondent to please state to the people of Washington whether he is without a fault. While I am not a retail grocer or any other kind of retail dealer, nor do I uphold any merchant for any misdeed he may do, yet this article is a slander on our merchants, as it leads anybody to think that Washington merchants are a set of "skins." My relation with them as far as they go are to the contrary, as they are thoroughly up to date and try to buy the best. Sometimes they get caught by some shyster who represents his goods to be pure when they are not, and they are the ones that gain the noteriety and abuse, while at the same time they are the innocent parties. There are no jellies or preserves sold on this market that are not pure unless they be marked "Compound." Right should prevail, but to jump on any of our merchants and rejoice at their misfortune is not creditable to anybody. It is a misfortune not to be able to look at vinegar and tell it is impure, and to let somebody come in and say "Give me a pint of milk," and you in your haste, pour off the top and he gets the fat while the next gets the lean and the merchantif gets the lean, and the merchant, if the second buyer is an inspector, gets it in the neck. If this writer is without fault, fire. Otherwise don't. W. A. BROOKS.
